Online Test Summary

Subject	BDA		
Max. Marks	30	Score	12

Certification Course Summary

Course	Hadoop		
Certificate Provider	Great learner academy	Duration	35min

Coding Challenges

Problem Statement:
1. Given an array arr[] of size N and an integer K. The task is to find the last remaining element in the array after reducing the array. The rules for reducing the array are: The first and last element say X and Y are chosen and removed from the array arr[]. The values X and Y are added. $Z = X + Y$. Insert the value of Z % K into the array arr[] at the position $((N/2) + 1)$th position, where N denotes the current length of the array
2. Python program for Pinkfloyd
3. Write a C Program to generate first N Armstrong Numbers.
